PYTHON CODE AND OUTPUT

The screenshot displays the PyCharm IDE interface for a project named 'pythonProject2'. The main editor window shows a file named 'test.py' with the following Python code:

```
1 print("HI")
2 a=24
3 b=55
4 c=a+b
5 print(c)
```

The left sidebar shows the project structure, including a 'venv' directory and files like 'main.py' and 'test.py'. The bottom panel shows the 'Run' output, indicating that the code was executed successfully, producing the output 'HI' and '79' (the sum of 24 and 55). The status bar at the bottom indicates 'Process finished with exit code 0'.
