8 Nov 14:27:04 - [info] Creating new flow file
8 Nov 14:27:04 - [warn]
```

-----  
Your flow credentials file is encrypted using a system-generated key.

If the system-generated key is lost for any reason, your credentials file will not be recoverable, you will have to delete it and re-enter your credentials.

You should set your own key using the 'credentialSecret' option in your settings file. Node-RED will then re-encrypt your credentials file using your chosen key the next time you deploy a change.

-----  
8 Nov 14:27:04 - [info] Server now running at http://127.0.0.1:1880/  
8 Nov 14:27:04 - [warn] Encrypted credentials not found  
8 Nov 14:27:04 - [info] Starting flows
